In the Specification:

Insert -- This application is 371 of PCT/JP03/09287 filed on July 22, 2003. -- after title on page 1.

Claims 11-12 and 14 have been cancelled drawn towards a non-elected invention.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed apparatus for successively making plastic bags each of which includes a bottom gusset portion incorporated into superposed two layers of panel portion, including: in claims 1 and 4, the panel material guide means includes first guide means by which the web means of panel material is guided to be folded into superposed two layers when being fed. The panel material guide means further includes second guide means by which the web means of panel material is guided to be folded back when being fed and after being folded into two superposed layers. The web

means of panel material is therefore folded and then folded back into three superposed layers.
